CAMPING ON THE BEACH

PERMANENT LOG CAMP

BOY HUNTERS IN CAMP

CAMP IN THE ADIRONDACK WILDERNESS

BOYS IN CAMP

OF FORM of American summer vacation life has shown greater expansion and development during recent years than camping. The appeal of this method of getting back to nature seems to be well nigh universal. It assuredly has no geographical limits and it is not restricted to any class of society. Indeed, strange as it may seem, many wealthy folk who have long been accustomed to the acme of luxury in their daily life are now most enthusiastic about "roughing it" for an interval every year. Perhaps the secret of the conversion of these lovers of their own comfort to the camping fad is found in the fact that every attribute of luxurious life is now found in only slightly modified form in the unconventional life of the realm of woods and waters.

There could be no greater mistake on the part of the uninitiated than to suppose that "camping out" in this twentieth century necessarily means the rather primitive existence we have always been wont to associate with the nomadic expeditions of hunters and fishermen. That form of life in the open is still in vogue among a steadily growing number of devotees and they are, one and all, ready to declare that it is the only form of camping worth while. All the same these sportsmen-campers who dwell for the most part in temporary habitations of canvas, brush or bark, are hopelessly in the minority these days in comparison with the new-fangled campers who dwell in what are known as "permanent camps."

These permanent camps are in many instances set down in surroundings just as rustic and rugged as could be found for the temporary shelters, but they are designed for longer continuous occupancy. It is the permanent camp which has been responsible for enrolling in the category of campers hundreds and thousands of women who do not like bug and smoky fires and other inconveniences of traditional camp life in its more elementary form. And because the women have gone in for camp life in considerable numbers and have, of course, taken the children to the camp environment it has come about that the average permanent camp, unlike the makeshift affairs, is occupied for weeks or more likely months at a time—and, where circumstances permit, continuously from June to October.

The very term permanent camp implies something much more costly and pretentious than the tent or tepee of the old-time camper, but while this is usually the case, it is not necessarily so. There are canvas abodes which rank as permanent camps, but they usually take the form of "tent houses" rather than the hastily pitched tent of the nomad. A tent house, it may be explained, has the canvas roof and walls stretched on an inexpensive wooden framework which gives a stability that is welcome when high winds prevail. Likewise does the tent house have a floor in the form of a wooden platform sufficiently elevated from the ground to dodge dampness and most likely it has facilities for leading through the canvas roof a stovepipe which constitutes the tangible evidence of cooking equipment of a supposedly more dependable character than the open campfire. In the less expensive grades of the permanent camp, too, are bark houses that can be constructed quickly and at a very low cost yet will remain weather tight for months with no attention.

Ascending the scale of expenditures, we come to the cabins, the shingle houses and the stone lodges that have become so popular as rustic homes where the "camp" is designed as a family abode for months at a time. And from these camps, which may cost only a few hundred dollars apiece or at most a few thousand, we advance to those marvels of the modern camping world—the log cabins of our multimillionaires, wherein may be found all the luxuries from tiled baths to electric lights. These present-day vehicles of the rich for "roughing it" in approved fashion are really entitled to rank as marvels of Yankee achievement. Some of them, such as the "camp" of Alfred Vanderbilt and J. Pierpont Morgan, are buried deep in the heart of the Adirondack wilderness—miles from the nearest railroad station or crossroads store, and yet house parties of from 20 to 30 guests are entertained at these retreats with all the perfection of detail as to menus and service that could reasonably be expected in a Newport villa.

For a temporary camp a single-pole tent with a fly is the most popular. It has many advantages, chief of which are lightness and the fact that it is easily set up. It should have a floor cloth of good canvas, to be tied in at the corners. The bed of browse or straw can be made under this floor cloth, so that the whole tent

is a bed. The pole should be jointed and that is the one concession to civilization, because you might have to camp where you could not get the right pole and because you cannot well carry a full-length tent pole in a bag. And all your outfit should be carried in a bag or bundle, without a single box or hard package bigger than your fryingpan and kettle. The Indians would not have dragged their tepee poles around with them had they been able to get fresh ones at every camp. Tent pins you can get in metal; but while they are compact they are too heavy for carriages, so these you must cut afresh.

In size your peaked top tent need be only about seven feet square to accommodate two or three persons. The fly will make a storeroom, if necessary. These canvases will make into packs to hold loose articles, in case your canvas pack bags get overcrowded. Of course you can camp without any tent at all, if you like. The writer and a friend once spent a night in the Yellowstone park in winter, when the thermometer was 26 degrees below zero and we had no tent, only a strip of light canvas. We dug a hole in six feet of snow and kept a fire going all night. That sort of thing is cold work, though a tent would not have helped us much. The trapper, who sometimes covers a hundred miles on his line of traps, has lean-to or log hovel with open fronts, so that he can keep a fire going in case he has not a cabin or tent with a stove. Even a good log fire does not offer complete comfort in case of rain. Rainy weather is far worse than cold weather and snow in camp and against rain you must have some sort of a roof. Bark and boughs sound well, but are hard to get into practical roofing shape.

Your bed ought to be good, for if you do not sleep comfortably you cannot enjoy yourself or do your work. A good bough bed is difficult and slow to make, although most writers praise about it lazily. Again, hay or straw may be impossible to secure. What then? An air mattress? Certainly not for any old-timer. A good pair of real wool blankets, weighing in the neighborhood of 11 or 12 pounds, a heavy cotton comforter and a long strip of wide canvas to roll it all up in tight and snug and dry, and you have a cow-puncher's bed, the best outdoor bed ever yet invented, and good for any weather.

Observe, especially, that this canvas, which folds in over your folded bedclothes, keeps out the dust and the rain. Your bed should be clean and it must be dry. Roll it tight and compact and tie it snugly when you move camp.

Your camp site should never in any time be too near the water. Get up on the bluff where the wind will strike you and you will be much

more free from mosquitoes. Many campers try to get into the shade of the trees and sometimes make a mistake in doing so.

On the building and conduct of your fire depends your comfort in camp. Never use a camp stove if it can be avoided. In much of coastwise Alaska, where the fuel is often largely composed of crooked porous alders, you may need a Yukon camp stove. In

pretty much all of the United States you will not require one. You do not need a lot of fancy camp dishes, but require at least one fryingpan, better two, a sheet-iron coffee pot, riveted, and some sort of cooking oven—a Dutch oven of cast iron, if your transportation admits it. Above all, you should remember that your campfire is not your cooking fire and that you do not cook on the flames but on the coals. You bake with hot ashes rather than with coals, because much camp cooking is burned when hurried. Of course in snowshoeing and camping in the winter time you may find it better to suspend your boiling kettles over the flame by means of long sticks thrust into the ground or snow at the other end. Such a stick is called by the Canadian Indians chip-lok-quogan. In other places it is known as a "crow." After your camp is done you must be careful to throw this stick down and not leave it standing, else you will have had luck.

In the eastern section of the country the Adirondacks, and to a lesser extent the Catskill mountains constitute the supreme paradise of the campers, although there is much camping along the St. Lawrence river, in the lake district of New Hampshire and in the Blue Ridge mountains. In the middle states the shores of the Great Lakes afford one far-flung camp ground and one of the most popular camping mecca in the entire world is embraced in the beautiful lake regions of Michigan, Minnesota and Wisconsin, where the smaller sheets of water seem to enable a closer acquaintance with nature in her most alluring form. Colorado has become a great camp ground for summer tourists of late years and on the Pacific coast there is no end of camping. All sorts of settings are available for the west coast campers—woodland, seashore and mountains, not forgetting that picturesque "tent city" which rises every summer on the alluring Coronado beach, near San Diego, Cal.

ARMY'S NEW TELESCOPE.

After years of patient experimenting Dana Dudley of Wakefield, Mass., has just had the satisfaction of having his "pan angle" telescope adopted by the war department of the United States. The invention is simple in its construction, yet, it is said, may revolutionize modern warfare. It consists of reflecting lenses so arranged at angles in a tube that persons or objects above or below and on all sides may be viewed from a place of concealment. The device as constructed for use in warfare is arranged so that even on disappearing guns or guns used in trenches and fired from any point invisible from the exterior the operator may ascertain the location of the enemy, target or other objective point without exposing himself.—Philadelphia Record.

IN A FIX.

"That clerk of mine is going to ask me for my daughter. He ain't earning enough to marry on." "Well?" "But if I bring up that objection he'll strike me for a salary raise."—Louisville Courier-Journal.

How often do you eat this food? A short time ago there appeared in the columns of one of the prominent magazines an article on building brain and muscle by the proper selection of the foods you eat. A good many people were surprised to find oatmeal placed at the top of the list of foods recommended; but if the article had appeared in an English or Scotch paper every reader would have expected to see first place given to good oatmeal.

As a matter of fact, Great Britain and Europe come to us for tremendous quantities of Quaker Scotch Oats because it represents to them perfect food, being the richest in flavor and best in cleanliness and purity, of all oatmeals. It is packed in regular size packages, and in hermetically sealed tins for hot climates.

The Doctor's Data.

A Howard girl who was uncertain as to her exact age, as her father and mother were not agreed on the year of her birth, decided to go to the physician who "attended the case." He said: "Why, certainly, my dear girl, I'll go and examine my old books." When he came back to report, he said: "I find your father charged with a girl baby born on the 'steenth day of April, 189—, and I also observe he still owes me for you."—Howard (Kan.) Courier.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube is inflamed, you have a running nose or throat, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. The cause of deafness is caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

J. J. CHENEY & CO., Toledo, O.

Sent by Druggists. Take Hall's Family Cure for catarrh.

At or About This Time.

"Why do they call them ocean liners?" she asked. "They're getting new terms every day," he said, without looking up from the sporting page. "I never heard it before, but an ocean liner is probably a hot one that isn't inflected well and rolls into a puddle or something."

She made no answer, but when he had gone to business she phoned the doctor about him.

His Face Was Turning Yellow

Someone told him that yellowness was caused by an inactive liver. He began taking NATURAL REMEDY, his natural color returned, his brain cleared. His liver was again active. NATURAL REMEDY never fails to correct the liver, they remove the bile, aid digestion and tone the system. Doctor John Pile for Liver Ills. Take one tonight and you'll feel better in the morning. Get a 25c box. All Druggists. The A. H. Lewis Medicine Co., St. Louis, Mo.

A Sad Case.

"Do you prefer your eggs poached or scrambled?" "I can't remember."

Qualification makes many business failures. It is thoroughly owned by Walter Pierce's Famous Points. One is a failure, three for nothing.

Let each man think he is the one man—for the time.

WOMAN'S GENTLE NATURE CALLS FOR GENTLE TREATMENT

Delicately formed and gently reared, women will find, in all the seasons of their lives, as maidens, wives or mothers, that the one simple, wholesome remedy which acts gently and pleasantly and naturally, and which may be used with truly beneficial effects, under any conditions, when the system needs a laxative, is—Syrup of Figs and Elixir of Senna. It is well known to be a simple combination of the laxative and carminative principles of plants with pleasant aromatic liquids, which are agreeable and refreshing to the taste and acceptable to the system when its gentle cleansing is desired. Only those who buy the genuine Syrup of Figs and Elixir of Senna can hope to get its beneficial effects, and as a guarantee of the excellence of the remedy, the full name of the company—California Fig Syrup Co.—is printed on the front of every package, and without it any preparation offered as Syrup of Figs and Elixir of Senna is fraudulent and should be declined. To those who know the quality of this excellent laxative, the offer of any substitute, when Syrup of Figs and Elixir of Senna is called for, is always resented by a transfer of patronage to some first-class drug establishment, where they do not recommend, nor sell false brands, nor imitation remedies. The genuine article may be bought of all reliable druggists everywhere; one size only. Regular price 50 cents per bottle. Get a bottle today to have in the house when needed.

Don't Feed Your Cotton to the Boll Weevil

When you can buy land cheap in the best cotton producing territory in Texas, where the boll weevil is absolutely unknown—it cannot live here. The upper Brazos is singularly adapted to cotton growing. Crop never fails. It is well established that the staple of the cotton grown here is unusually good—the longer the staple the longer the price. We offer you choice lands from our holdings of 673 square miles of best farming land in West Texas at prices from \$12 to \$18 per acre—some with down, balance 1, 2, 3, 4, 5 and 6 years, payable on or before maturity. Wonderful hog country—no cholera. General crops of all kinds adapted to the country thrive wonderfully. Fortunes await any intrepid farmer in this new country, to which the Wichita Valley railroad has lately extended its line. Healthy climate. Altitude 2000 to 2500 feet. Not on the plains. Cotton and hogs will be kings for years to come.

SPUR FARM LANDS

In Dickens, Kent, Crosby and Garza Counties, Texas. For full information, with illustrated booklet, address, CHAS. A. JONES, Manager, For S. M. SWENSON & SONS, SPUR, DICKENS CO., TEXAS.

Hood's Sarsaparilla

Leads all other medicines in the cure of all spring ailments, humors, loss of appetite, that tired feeling, paleness and nervousness. Take it.

Get it today. In usual liquid form or tablets called Sarsaparilla, for Doses.

RHEUMATISM

Cured by the Marvel of the Century, B. B. B.—Tested for 30 Years.

Acting house, swollen joints, permanent pain through the body with pain in the limbs, to prove it we will send you a SAMPLE TREATMENT FREE. If you have bone pains, aching or burning pains up and down the legs, aching back or shoulders, stiffness, swollen joints or swollen muscles, difficulty in motion around so you have to use crutches; blood thin or vice versa; pains in the chest and burning shifting pains; bad breath; indigestion; take Hood's Blood Balm (B. B. B.) which will remove every thing from your system, rich pure blood direct to the paralyzed nerves, bones and joints, giving warmth and strength just where it is most needed, and in this way making a perfect lasting cure of Rheumatism in all its forms. B. B. B. has made thousands of cures of rheumatism after all other medicines, liniments and doctors have failed to help or cure. DRUGGISTS, or by express, \$1 PER BOTTLE, with directions for home cure. B. B. B. SENT FREE by writing Hood Blood Balm Co., Atlanta, Ga. Describe your trouble and free medical advice given.

W. L. DOUGLAS

\$5, \$4, \$3.50, \$3 & \$2.50

Best Shoes \$5.00 SHOES \$2.50 & \$3.00

W. L. Douglas shoes are worn by more men than any other make.

BECAUSE:

W. L. Douglas \$5.00 and \$4.00 shoes, in style, fit and wear, outlast any other make, \$5.00 to \$4.00.

W. L. Douglas \$3.50, \$3.00 and \$2.50 shoes, are the lowest price, quality considered, in the world.

First Class Quality.
